

PRESS RELEASE: DDI Announces Agency Agreement with TGC of China

START

Tongguang Cable (TGC) from China establishes a platform in the Sultanate of Oman

Desert Dunes International (DDI), a subsidiary of Golden Dunes International (GDI), is pleased to announce the recent establishment of an agency relationship with Tongguang Cable (TGC), a highly professional and leading manufacturer in China for excellent quality cable and wire. The main products of the Company include OPGW, ADSS, OPPC and other optical cable along power transmission lines and are widely used in power and telecommunication sectors. This relationship presents DDI the opportunity to provide added solutions for the users of such cables and wires within Oman, especially over the last couple of years where the demand for power has doubled and there is need for increase in both energy and telecommunication infrastructure both in urban and rural areas.

“I am extremely pleased that we were able to develop an agency relationship with TGC, which is also their first agency relationship in the Middle East” said Hamdan Al-Shaqsy, Group Chairman and CEO of GDI. “TGC Organization’s culture mirrors GDI’s motto for total dedication to our customer needs. The addition of TGC’s products created by this new relationship is another great example of GDI’s commitment to creating end-to-end supply solutions for our great nation.”

Mr. Wu Di, International Sales Manager of TGC said, “We at TGC are excited about our new relationship with DDI and the GDI Group, and we are pleased to be associated with a group like GDI that shares our dedication to providing highest quality products to our customers. We see this relationship as a platform for further success in the Middle East for TGC.”

Established in the year 2000, TGC is based in Haimen City, Jiangsu Province, China. The company is equipped with many world class manufacturing equipment and measurement instruments from USA (Jennings), Germany (SPIRKA & WIEDENBACH), etc. and is renowned for its strength in R&D for many years, having a technical team of many well-known experts that are committed to research and development of new products. TGC supplies 72% of China’s consumption for sub-marine cables and commands around 50% of the cable market in China. The products of the company were honoured as “Top Brand of Nantong” and "Famous Brand" by China electronics industry. TGC currently have offices in Canada, India, Russia, South Africa and the Philippines.
